INTERNAL SEMI-ANECHOIC CHAMBER WITH ADVANCED EQUIPMENT
SALA SEMI ANECOICA INTERNA CON STRUMENTI DI RILEVAZIONE ACUSTICA ALL'AVANGUARDIA

EN Our activity was born in Faenza in 2005, where we started as manufacturers of architectural acoustic loudspeakers with a clear mission: to create acoustic solutions that positively influence people's lives. We have in-house, specialised audio technicians who, through their experience and passion and thanks to cutting-edge audio equipment and a semi-anechoic chamber, manufacture the finest and best solutions.

IT Siamo nati a Faenza nel 2005 come produttori di diffusori acustici architettonici con una chiara missione: creare soluzioni acustiche che influenzino positivamente la vita delle persone. Grazie all'esperienza e passione dei nostri tecnici audio specializzati e attraverso strumentazioni audio all'avanguardia e una sala semi anecoica, realizziamo soluzioni innovative.

FR Notre activité commence en 2005 en tant que producteurs de haut-parleurs acoustiques architecturaux avec une mission claire: créer des solutions acoustiques qui influencent positivement la vie des gens. Des techniciens spécialisés dans l'audio travaillent dans l'équipe Garvan, auprès de notre siège. Grâce à leur expérience et passion et en utilisant des équipements audios de pointe et une salle semi-anéchoïque, ils réalisent des solutions de jour en jour meilleures.

DE Wir wurden 2005 in Faenza als Hersteller von design Akustiklautsprechern mit einer klaren Mission geboren: Akustiklösungen zu schaffen, die das Leben der Menschen positiv beeinflussen. Unsere interne Audiotechniker haben eine große Erfahrung und Leidenschaft und realisieren durch die modernsten Audiogeräte und eine Halb-reflexionsfreie Kammer immer bessere Lösungen.

EN Our acoustic panels are the result of 15 years of constant acoustic innovations to offer the best acoustic comfort solution. They reduce the level of noise generated in indoor environments and offer a comfortable atmosphere encouraging conversation among people thanks to a better acoustic quality. The acoustic panels can be applied to the ceiling or can be suspended.

IT I nostri pannelli fonoassorbenti sono il frutto di 15 anni di innovazioni acustiche costanti per offrire la migliore soluzione di confort acustico. Riducono il livello di rumore generato in ambienti interni e favoriscono l'ascolto e il dialogo tra le persone grazie ad una migliore qualità acustica. I pannelli fonoassorbenti si possono applicare a parete, soffitto o sospesi.

FR Nos panneaux acoustique sont le résultat de 15 années d'innovations constantes pour offrir la meilleure solution de confort acoustique. Ils réduisent le niveau de bruit généré dans les environnements d'intérieurs et offrent un espace confortable qui encourage la conversation entre les gens grâce à une meilleure qualité acoustique. Les panneaux acoustiques peuvent être appliqués au plafond ou peuvent être suspendus.

DE Unsere schallabsorbierenden Paneele sind das Ergebnis von 15 Jahren ständiger akustischer Innovationen, um die beste akustische Komfortlösung zu bieten. Sie reduzieren den Geräuschpegel in Innenräumen und bieten eine entspannende und komfortable Umgebung für eine optimale Unterhaltung der Gäste dank einer besseren Akustik. Die schallabsorbierenden Paneele sind an der Decke zu installieren oder können aufgehängt werden.

ADJUSTABLE FIXING SYSTEM

EN These systems reduce noise level in the environment and lower the reverberation time by offering a comfortable acoustic environment encouraging conversation among people and a high-quality listening experience. The panels are best integrated into any architectural project thanks to the wide range of shapes available and the possibility of high-resolution prints. We also offer endless customisation options to boost creativity and meet the needs of interior design.

IT Questi sistemi riducono il rumore nell'ambiente e abbassano il tempo di riverbero migliorando il dialogo tra le persone e l'ascolto di musica. Grazie alle molteplici forme disponibili e la possibilità di stampe ad alta risoluzione i pannelli si integrano al meglio in ogni progetto architettonico. Offriamo inoltre una personalizzazione estrema al servizio della creatività e delle esigenze dell'interior design.

FR Ces systèmes réduisent le bruit dans l'environnement et réduisent le temps de réverbération, en offrant un espace confortable qui encourage la conversation entre les gens et l'écoute de la musique. Grâce aux nombreuses formes disponibles et à la possibilité d'impressions à haute résolution, les panneaux s'intègrent de manière optimale dans tout projet d'architecture. Nous proposons également une très vaste gamme de personnalisations infinie, au service de la créativité et des besoins du design d'intérieur.

DE Diese Systeme reduzieren die Umgebungsgeräusche und die Nachhallzeit, indem sie eine entspannende und komfortable Umgebung bieten für eine optimale Unterhaltung der Gäste und um Musik zu hören. Dank der vielen verfügbaren Formen und der Möglichkeit, hochauflösend Drucke durchzuführen, lassen sich die Paneele am besten in jedes Architekturprojekt integrieren. Wir bieten auch eine breite Reihe von kundenspezifischen Optionen, für mehrere Kreativität und um die Bedürfnisse der Innenarchitektur zu befriedigen.
