ZEN SERIES

sound & light

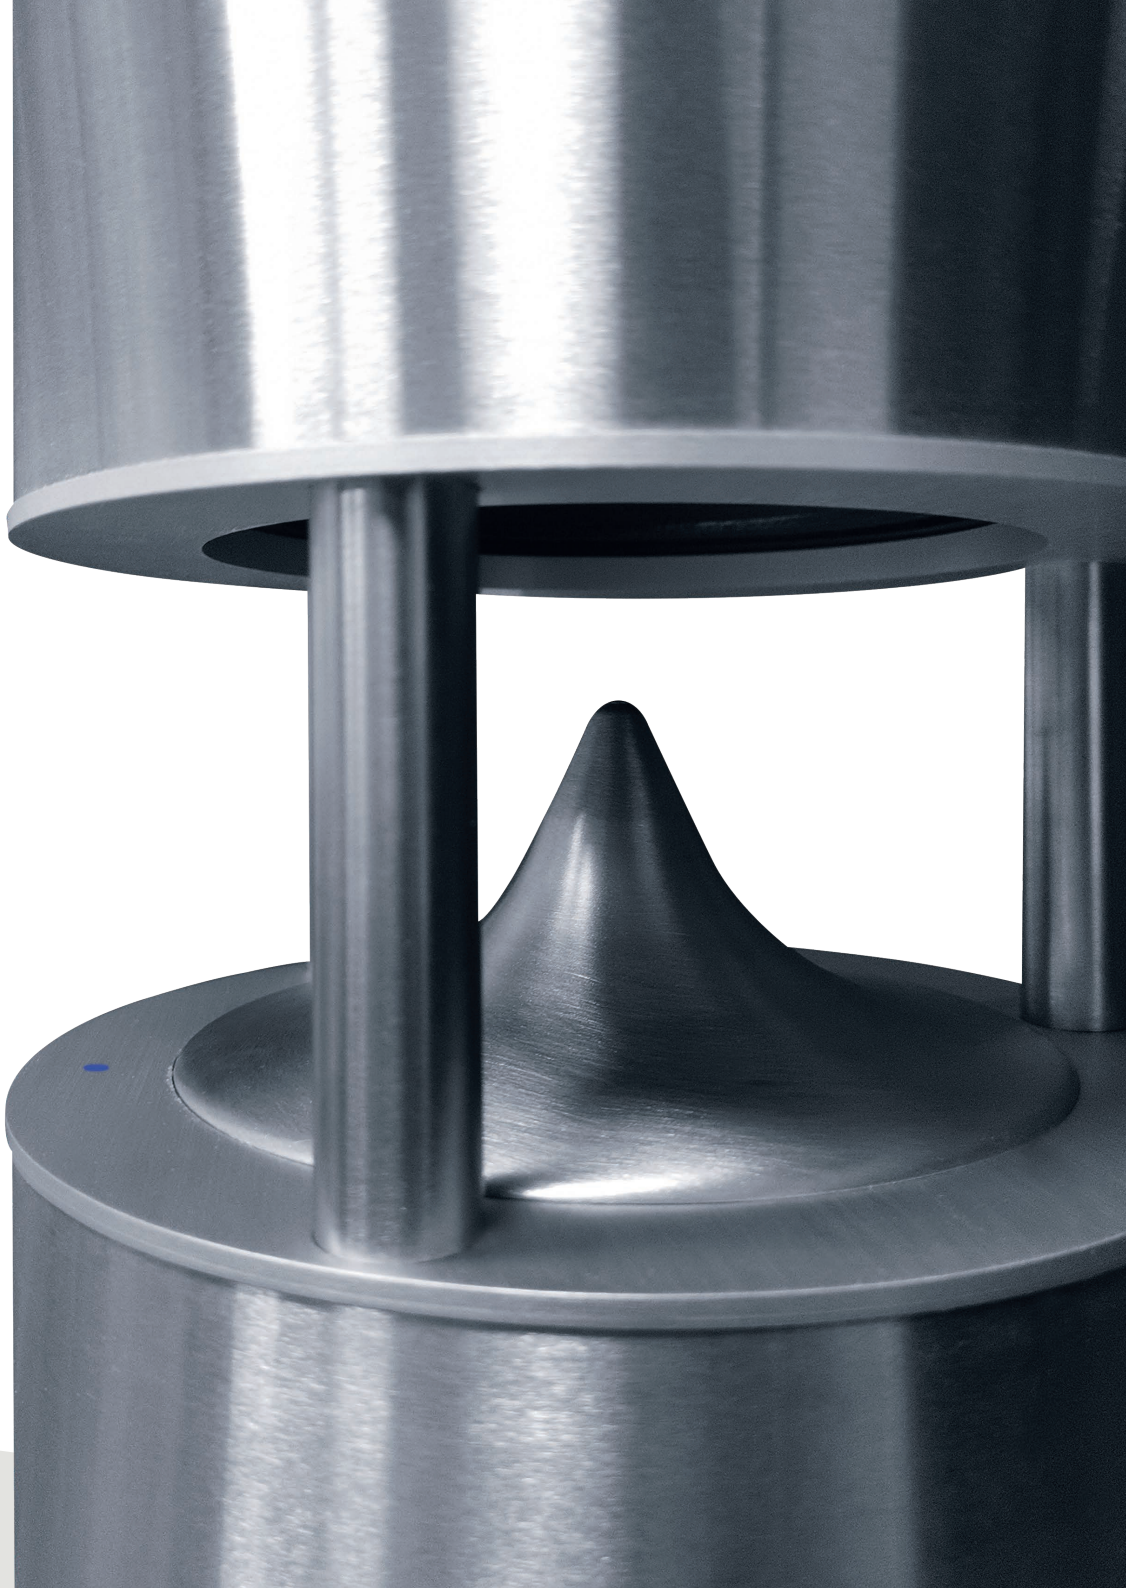
THE CONCEPT

Providing sound reinforcement to outdoor environments is not an easy task.

An outdoor speakers must operate and resist to all weather conditions, deliver a proper sound pressure level, quality and diffusion, yet keeping a pleasant design to match look and functionality expectation in any environment.

At Vivaldi we concentrated our efforts in designing and developing a whole series of premium speaker solutions that integrate top level Italian audio technology in a professional grade 316 stainless steel and aluminum enclosure with a premium brushed finish.

This was just the beginning. We also incorporated LED light modules for a better integration in open spaces where light is required. Zen speaker series.



VIVALDI UNITED GROUP®

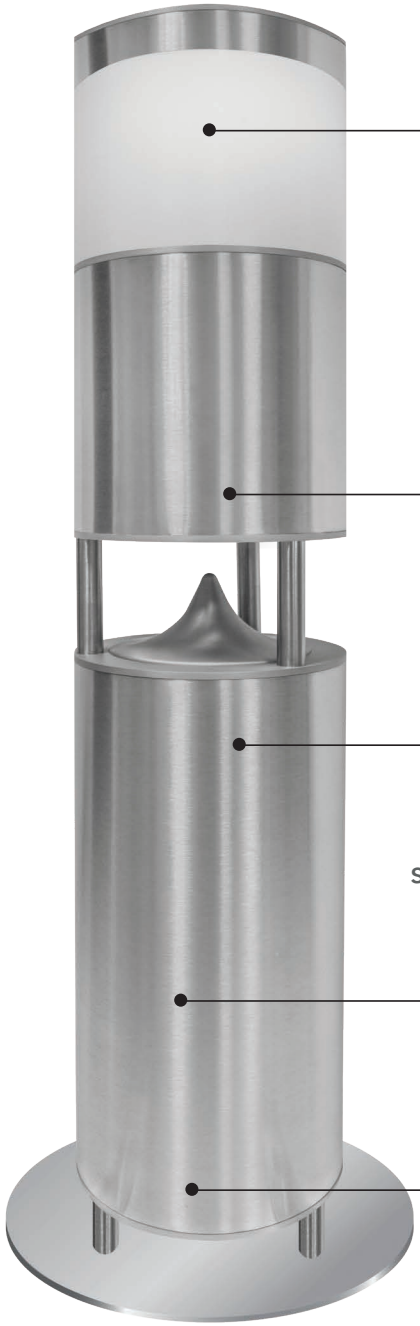
THE MODELS

All Zen speakers feature a premium, water resistant coaxial design loudspeaker with a compression driver to improve efficiency at high frequencies. The top model also includes a dual push-pull subwoofer on the bottom of the cabinet for an impressive sound impact. Wow effect is guaranteed.

All models are available in combination with an LED light module, and in 8Ohm or 100V, active or passive version.

Every single speaker is assembled, sealed and tested by hand by our specialized team to provide a long lasting sound experience.

Zen speakers are 100% Made in Italy.



LIGHT
13 White LEDs
powerful and neutral

SPEAKER
2-way coaxial speaker
optimal frequency response

STRUCTURE
Waterproof stainless
steel case brushed finish

DRIVE
8Ω, 100V or active version

SUBWOOFER
2x16,5 cm push-pull
